

## Daily Checklist

### TRAINING

#### ARRIVAL ON SCENE

X	Task
	The screening questionnaire is carried out for each person.
	Those present are informed of the procedure for leaving the premises and notifying the organization in the event of the presence of a potentially infectious symptom.
	The distance of 2 meters is respected at the arrival of the persons.
	Persons arriving on the scene wash their hands for at least 20 seconds.

#### AFTER LUNCH

X	Task
	Each dining area is cleaned by the user, including the fridge handle, microwave, tables and chairs.
	Every door handle, toilet, washbasin and banister are disinfected.

#### END OF DAY

X	Task
	Every door handle, toilet, washbasin and banister are disinfected.
	All manikins/dummies and equipment used in an individual practice are disinfected by the student before being handed over to the instructor.
	The instructor makes sure to identify contaminated equipment and seals the carrying bags with a RED seal in order to be returned to the office and completely disinfected.
